

# Art in the Street

As you wonder around see how many dunnies you can find hidden in the paintings

## Welcome to Tongala

We have had murals for some 15 years and it is now time to add a new experience for visitors to not only tell our unique history and character but add a little humour and intrigue. The Lions Club obtained a grant from The Tongala Community Bank for the materials for the Art in the Street project with local artists volunteering their skills and time to make it a community project.

If you start at one end of the street there are over 30 different paintings that you can see as you stroll along some have written explanations others will require your imagination. Some are designed as backgrounds for photos an example is the angle wings. The old garage is the FJ Holden era, and check out the " Wash House" the old Laundry.

While you are in town call in and say hello to the local shops they are friendly like the folk who live in Tongala, who need your support for our town to have a sustainable future, so thank you for calling in and if you enjoyed your visit tell others to come and say "Goodbye" we'd love to make them welcome
